You are welcome to provide your input regarding this project on this form. Comments may also be mailed within two weeks of this meeting to the address at the bottom of this page.

Project No.2 – La Vista Road intersection Project

This project would widen both Briarcliff and La Vista Roads to provide an additional through lane on each approach to the intersection. The existing left-turn lanes would be lengthened. Right turn only lanes would be constructed for north and southbound Briarcliff Road. Lastly, an additional left turn lane would be added to northbound Briarcliff Road. In conjunction to having the traffic signal upgraded, curb & gutter, sidewalks, and ADA ramps would be constructed as a part of this project. Sidewalks would be extended beyond the intersection widening area to connect with existing sidewalks.

The estimated cost of this project, including engineering, right-of-way and construction is \$5.8 million.
